JV Luxury is Joomla! Template developed by Joomlavi group.

This template, like all templates developed by Joomlavi group, consists of two part: The theme manager component JV Framework and the theme named JV Luxury

As the name implied, this theme was designed for Luxury-related or Musical sites.

# DEMO & DOWNLOADING

To download JV Luxury Template, register a username on <http://Joomlavi.com> and purchase a package .

Afterward, you can look for JV Luxury within the Joomla! Templates page (which can be accessed by hovering your mouse over 'Joomla! Products' menu and select 'Joomla! Templates').

You can also go to JV Luxury's page directly using this URL: <http://www.joomlavi.com/joomla-templates/10-joomla-templates/jv-Luxury.html>

Within JV Luxury's page, below the screenshot, there are 2 rows of buttons for Joomla! 1.5 and Joomla! 1.7, each consists of: 'Live Demo', 'Download' and 'Position'

**Joomla! 1.5 :** [Live Demo](#) [Download](#) [Position](#)

**Joomla! 1.7 :** [Live Demo](#) [Download](#) [Position](#)

To all hotel and resort owners looking for a template for their websites out there, we'd like to introduce this new theme, the JV Luxury. To give the visitors the feeling of 'spacious' and 'clean', both important quality for a hotel or resort, this template was designed with compact menus and use white as its main color. The default layout also help showcasing the rooms and activities of your hotel/resort. JV Luxury comes with 4 color variants: orange, cyan, red- brown and purple; as well as various other tools to make layout editing a lot easier. You won't have any trouble adding a unique touch that separate your hotel/resort from the rest. Experience for yourself what can be done with JV Luxury!

## Features

- Support RTL
- Quickstart (Joomla install that includes demo data)
- Mobiles: iPhone/iPad, Android, handheld theme
- Drop and drag module position.
- Validate xhtml and CSS
- 100% tableless CSS
- CSS3 powered
- Multiple Layout Options
- Google Fonts
- SEO Optimized
- 4 Colors
- Flexible template and column widths
- Custom theme profile
- Compatible: Firefox, IE 7+, Chrome, Safari, Opera ...
- Columns: Unlimited

*There will be multiple files in the download page. Before selecting which file(s) to download, please consider what you are planning to do.*

*-If you are setting up a new site, the Quick-Start version is the best choice, because it will install an entire new site with all associated extensions and styled to look like the template's live demo.*

*-If you already have a site and don't want to replace it, or you only want the template without extensions and styling, the Theme version will be your choice. Installing a theme will give you only a new template/theme without any extra extension or data loss.*

After you have confirm the file(s) you need, select them by ticking the box(es) in front of said file(s), then click download.

If the file you downloaded has 'unzip\_first' in its name, please extract it before continuing with the installation.

# INSTALLATION

## Installing JV Luxury template with Quick star version:

To install a QuickStart version of JV Luxury, follow the following steps:

- Extract the file with 'unzip\_first' in its name.
- Extract the resulting file into a folder
- Copy or move said folder into your server's source folder.
- Install the quickstart template the same way you install a new Joomla! instance using browser. During the installation process, you must remember to install Sample Data by clicking on the Install Sample Data button.

The screenshot shows the Joomla! installation interface. A blue callout box with a white arrow points to the 'Install Sample Data' button, containing the text: 'Please remember to install Sample Data'. The page includes sections for 'Site Name', 'Confirm the Admin E-mail and Password', and 'Load Sample Data, Restore or Migrate Backed Up Content'. The 'Load Sample Data' section has two radio buttons: 'Install Default Sample Data' (selected) and 'Load Migration Script'. Below these are fields for 'Maximum Upload Size', 'Old Table Prefix', 'Old Site Encoding', and 'Migration Script'. There are also checkboxes for 'I have already uploaded the migration script to the server (e.g. This script is a Joomla! 1.0 migration script.)' and an 'Upload and Execute' button.

## Installing JV Luxury template with Theme version:

You will need to install a theme managing component called JV Framework before you can install JV Luxury as a theme.

## To install JV Framework:

- Click on JV Frame Work download on the upper right corner, just under user menu.

The screenshot shows the Joomla! Templates Club website. At the top, there are navigation tabs: JOOMLA! TEMPLATES, PORTFOLIOS, TUTORIALS, CUSTOM SERVICES, REQUEST A QUOTE, and JOOMLA! PRODUCTS. A search bar is on the right. Below the navigation, there are several template categories: JV Events, JV Hitech, JV Desire, and JV Pet. On the right side, there is a large banner for 'JV Framework' with download links for Joomla! 1.5.x and Joomla! 1.7.x. A blue callout box with a white arrow points to the 'Download' button for Joomla! 1.7.x, with the text 'Click here to enter JV Framework's download page'.

- In the new page, select the version(s) you need and click download. There are different versions for Joomla! 1.5 and Joomla 1.7

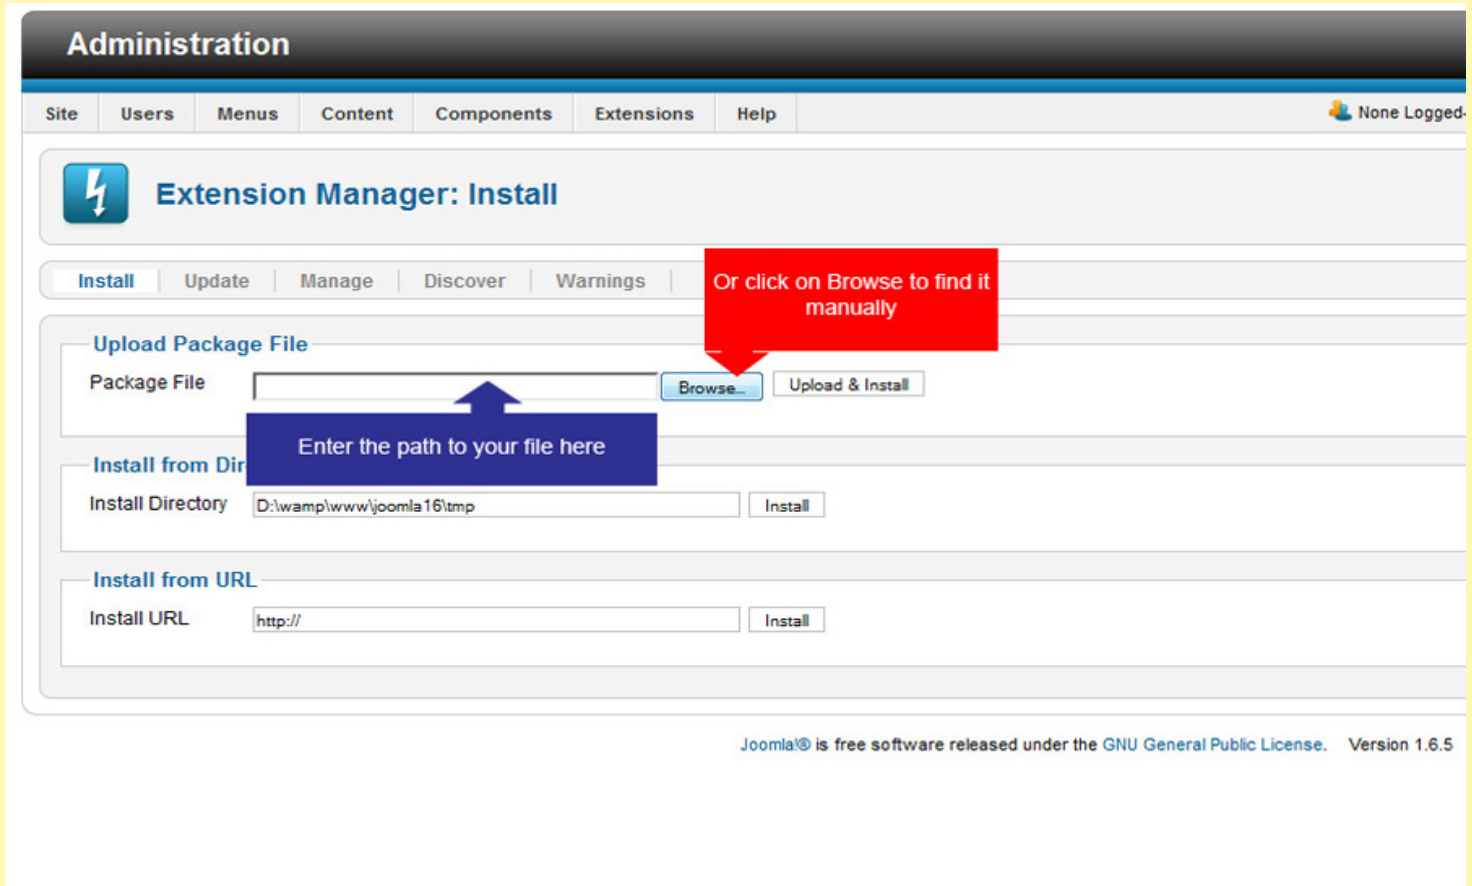

The screenshot shows the 'JV Framework files' page. At the top right, there are links for 'Grab our RSS feed' and 'Joomla! Extension Directory'. Below the navigation, there is a table of files:

<input type="checkbox"/>	File name	Type	Date	Version
<input type="checkbox"/>	Com JV Framework for Joomla 17	component	10-04-2011	1.6.4.4
<input type="checkbox"/>	Com JV Framework for joomla 15	component	07-05-2011	1.5.4.4
<input type="checkbox"/>	Quickstart JV Melody for joomla 15	quickstart	17-04-2011	1.5.4.4
<input type="checkbox"/>	Quickstart JV Melody for joomla 17	quickstart	27-05-2011	1.6.4.4
<input type="checkbox"/>	Com JV Framework without theme for joomla 15	component	07-06-2011	1.5.4.3
<input type="checkbox"/>	Com JV Framework without theme for joomla 16 and joomla 17	component	09-06-2011	1.6.4.3

Below the table, there is a 'Download' button and a message '0 selected files'. Below that, there is a section titled 'INTRODUCTION' with the text: 'POWER IN YOUR HAND! Web design hasn't ever been as interesting as in JV Framework with the first-time deployed Drag and Drop feature. Along with many advanced features, JV Framework brings you the power to handle your website in the most elegant way. Check it out to see what you will gain through JV Framework in our feature list. **JV Framework, make it yours!**' To the right of the introduction text, there are several small images showing website designs.

- If the file you downloaded has 'unzip\_first' in its name, remember the extract the file before continue installing.

- Log into your Joomla! back end, select extension manager (Joomla! 1.7) or Install/Uninstall (Joomla! 1.5) from extension manager menu.
- On install tab, type the path to your file into the blank field of 'install from package' section or click on 'browse' to find it manually
- Click on 'Upload & Install'.

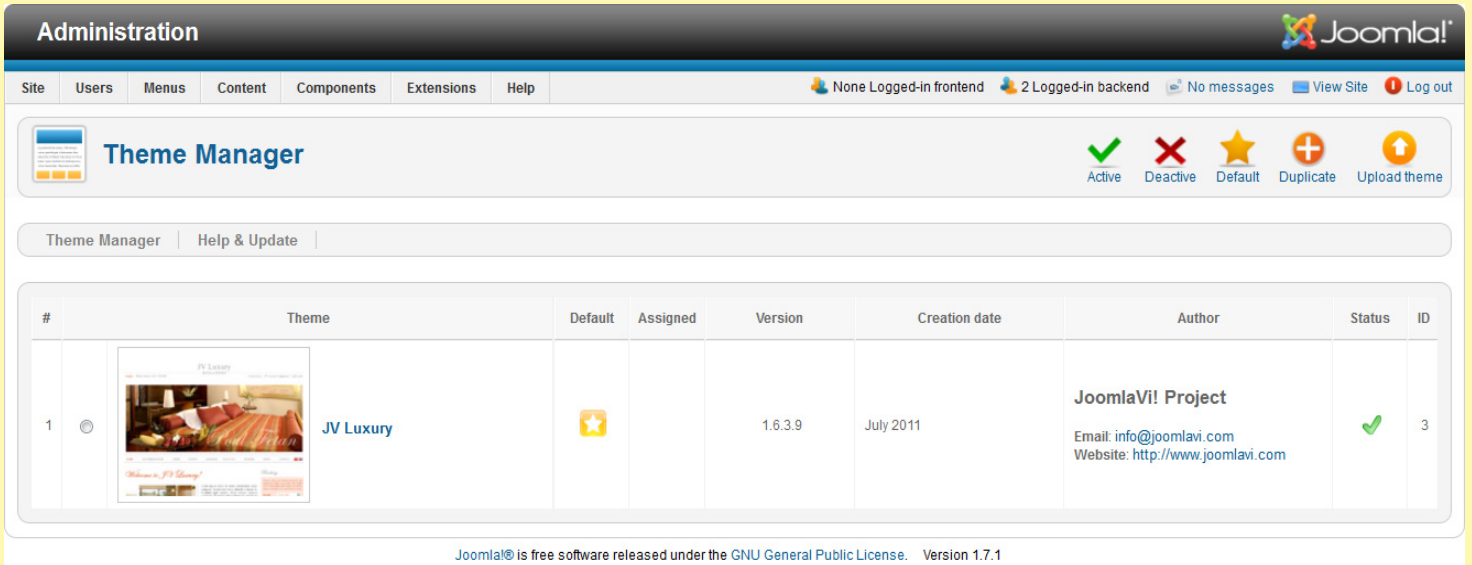

- Now you can find 'JV Framework' from the component menu.

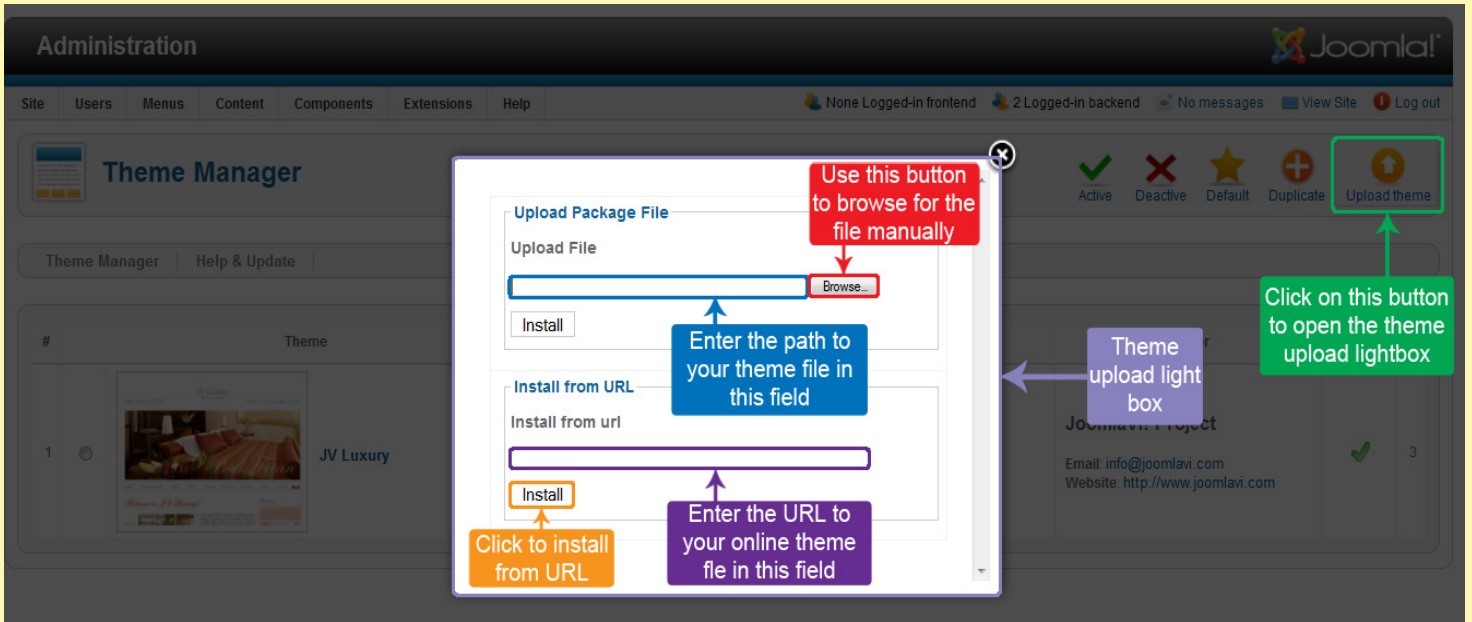

## Installing JV Luxury theme

Using upload theme:

- Rename your install file and remove the number at the end, leaving only the theme's name.
- From back end, access JV Framework from component menu.
- Inside JV Framework theme manager page, click on the upload theme button.
- type the path to your file into the blank field or click on browse to find the theme manually.
- Click on install to finish uploading the new theme.

### Theme upload lightbox

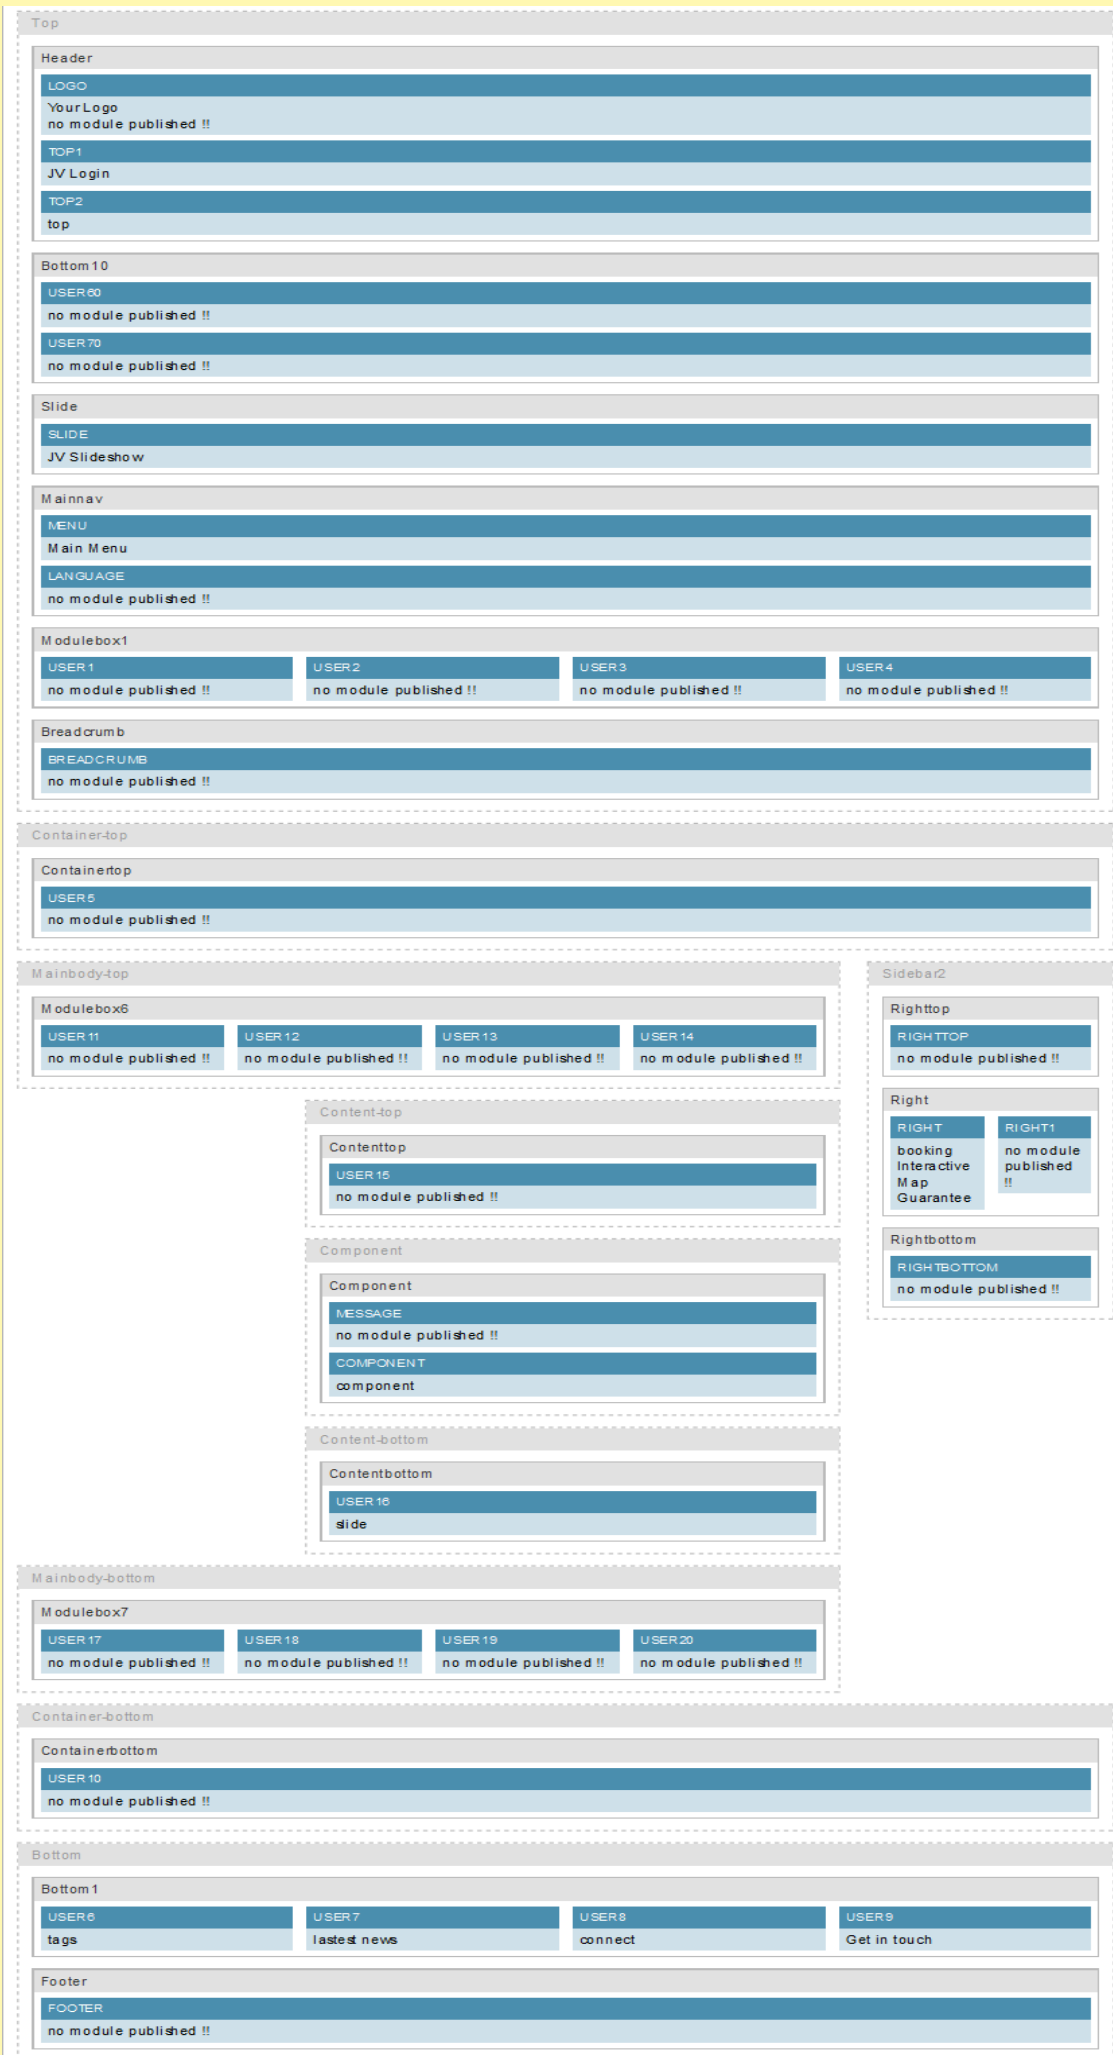

### Installing manually:

- Extract the theme's zip file.
- Copy the resulting folder to <templates\jv-framework\themes> within your site's source folder.
- return to JV Framework's theme manager in your site's back end and check your theme list.

## MANAGING JV LUXURY WITH JV FRAMEWORK

The main difference between themes when using JV Framework is the position layout. The following image will show the default layout of JV Luxury:

For the basic functions of JV Framework, please refer to JV Framework User guides

## **EXTENSIONS OF JV LUXURY:**

If you used the Quick-start version of JV Luxury template, the following extensions will be included. For a JV Luxury theme user, you would have to download and install these extensions manually:

### **JV Slideshow (Module)**

\*To replicate the Demo site, replicate this module and name the duplication 'slide' with the class suffix '-slide'. Assign the original module to the position 'Slide' on all pages and the duplication to the position 'user16' on Home page.

Prepare the folders where you store the images you wanted to use. If you wanted to display thumbnails for your slides, create a "thumbnails" folder within each image folders and store the resized images you want to use as thumbnails there.

-Within your site back end, go to Module Manager and click on the module's name.

-Inside Module mod, set the location to your image folders, select your source and set the parameters.

-Set the module to published/enable and select the pages where you want to display it.

-Save the setting and click on view site (Joomla! 1.7) or preview (Joomla! 1.5) to see the result.

For the parameters' effects, please read the JV Slideshow User Guide

## JV Login

\*To replicate the Demo site, this module should be assigned to the position 'Top1' on all pages

To use JV login, log into your site's backend and open up Module Manager, then click on the module's name.

Set the template to 'quick' on the module included in the quick-start version, or 'pop up' on the separated download version.

For more detail about the module's parameter, please read JV Login User guide.

After saving your setting, click on view site (Joomla! 1.7) or preview (Joomla! 1.5) to see the result.

The screenshot displays the JV Luxury Hotel & Resort website. At the top, the logo 'JV Luxury HOTEL & RESORT' is visible, along with a reservation number '281 5301907' and links for 'e-directory', 'JV Luxury magazine', and 'gift card'. A navigation menu includes 'HOME', 'ACCOMMODATION', 'TERMS', 'EVENTS', 'SEMINARS', 'ACTIVITIES', 'BOOKING', 'NEWS', and 'CONTACT'. The main content area features a large image of a hotel room with the text 'St. Armet' overlaid. Below the navigation, there is a 'Welcome to JV Luxury!' message and a 'Booking' section with a form for arrival and departure dates. A login module is positioned in the top right, with a 'Login' button and a 'Login light box' containing a username and password field. A green arrow points to the 'Login' button with the label 'Click to open login box', and a blue arrow points to the 'Login light box' with the label 'Login light box'.

## JV Translate

\*On the Demo site, JV Translate was disabled and thus wasn't on display. It was a part of the quick-start package however, and was assigned to the 'language' position and set to show on all pages.

Setting up JV Translate is fairly simple. For more detail, please refer to the JV Translate User guide

## JV Contact

\*To replicate the Demo site:

-Install both the Component and the Module parts of JV Contact.

-Afterward, duplicate the module, change the original one's name to 'Map' and the duplicate to 'Get in touch' with a '-gettouch' class suffix.

-Assign 'Map' and 'Get in touch' to the positions 'map' and 'user9' respectively, with both set to be displayed on all pages.

-Create an article named 'interactive map' with the html code

```
<div class="interactive-map">{loadposition map}</div>
```

-Upload an image you want to symbolize the interactive map to your server

-Create a custom html module named 'interactive map' contains the following html code

```
<p><a href="index.php?option=com_content&view=article&id=<article id>&Itemid=152" target="_self"></a></p>
```

```
<p>Click Here to view an interactive map of the exclusive vacation destinations and small luxury hotels that JV Hotel has to offer.</p>
```

With: <article id> = the id of the 'Interactive map' article and <"image link"> = the path to the image you uploaded.

The screenshot shows the Joomla! Custom HTML module editor interface. The 'Note' field is empty. The 'ID' is 23 and the 'Module Description' is 'This Module allows you to create your own HTML M...'. The 'Custom output' section shows a text editor with a rich text toolbar. Below the editor is a preview of a map with several red location markers. The text below the preview reads: 'Click Here to view an interactive map of the exclusive vacation destinations and small luxury hotels that JV Hotel has to offer.' Below the preview are buttons for 'Article', 'Image', 'Page Break', 'Read More', and 'Toggle editor'. An 'HTML Source Editor' window is open over the editor, showing the following HTML code:

```
<p><a href="index.php?option=com_content&view=article&id=21&Itemid=152" target="_self"></a></p><p>Click Here to view an interactive map of the exclusive vacation destinations and small luxury hotels that JV Hotel has to offer.</p>
```

-Assign the 'interactive map' module to the 'right' position on all pages.

-In the component, set the contact and fields according to these screenshots:

Joomla! is free software released under the GNU General Public License. Version 1.7.1

-In the 'Map' module, set 'Google map' as the layout

-In the 'Get in touch' module, set 'Form contact' as the layout

For more detail about JV Contact, please read the JV Contact Userguide.

After you have finished setting the modules, click view site (Joomla! 1.7) or preview (Joomla! 1.5) to see the result.

### 'Interactive Map'/'Map' module

The screenshot displays the top navigation menu with links: HOME, ACCOMMODATION, TERMS, EVENTS, SEMINARS, ACTIVITIES, BOOKING, NEWS, CONTACT. Below the menu is a large banner with the text "Welcome to JV Luxury!". The main content area features a Google Map of a city street grid (Phù Thọ Hòa, Lê Thiết, Lê Lộ, Lê Văn Kháo, Lê Lợi) with a red location pin. To the right of the map is a "Booking" form with fields for "Arrival:" (19.07.2011) and "Departure:" (19.07.2011), a "Search" button, and a link "Or book by phone". Below the map is a smaller "Interactive Map" module with a thumbnail image of a world map and the text "Click Here to view an interactive map of the exclusive vacation destinations and small luxury hotels that JV Hotel has to offer." Three blue callout boxes with arrows point to these elements: "The Map module displayed via the 'interactive map' article" points to the main map; "Click on this image to open the 'interactive map'" points to the world map thumbnail; "The 'Interactive map' module" points to the text below the thumbnail.

### 'Get in touch' module

The screenshot shows a "Guarantee" section with a list of benefits: "Best price every time", "No booking fees", "24-hour phone and online service", and "Anyone can book - but members get more". Below this is the "GET IN TOUCH" module, which includes a "Send message" button and a "Read more" button. The footer contains three columns: "TAGS" (Budget boutique hotels, Eurosta, Child-friendly, Boutique bed and breakfasts, Honeymoon hotspots, Best for couples), "LASTEST NEWS" (Vestibulum convallis neque quam, Maecenas pulvinar tempor eros, Donec tempor volutpat erat, Quisque molestie dui id ligula, Morbi ullamcorper tellus quis elit, Duis congue pulvinar magna sed), and "CONNECT" (Follow Us on Facebook, Twitter, MySpace, Delicious, Digg). A blue callout box with an arrow points to the "Send message" button, labeled "Get in touch module".

*This is the end of the Joomla! Template: JV Luxury User Guide  
I hope it'd be useful for those who took an interest in this template but had trouble  
figuring out how it works.*

*Good luck tinkering!*
