JOOMLA! EXTENSION: MODULE JV TRANSLATE USER-GUIDE

WHAT IS JV TRANSLATE?

JV Translate is a Free Joomla! Module developed by team Joomlavi. It utilizes Google Translate API to allow the user to translate the site or a paragraph of text into another language.

Note: As of version 2.5, JV Translate will use Google Translate API version 2 (Pay per use) instead of Google Translate API version 1 (free for use, but was shut down), thus, while the module itself is free, the act of translating your site with it is not.

WHERE AND HOW CAN I DOWNLOAD JV TRANSLATE?

To download JV Translate, go to http://www.joomlavi.com and register a username

Login and lookup JV Translate in the Joomla Extensions page (can be found in Joomla Products sub-menu) or use the direct link <u>http://www.joomlavi.com/joomla-extensions/jv-translate.html</u>
